Asphalt Patching

Brookings County Roads 2020

+/-5,000 tons - more or less - map attached with designated roads for asphalt patching

- **The Brookings County Board of County Commissioners reserves the right to accept or reject any or all bids, or to increase or decrease contract quantities by no more than 25%.**
- Bidder to mark **DATE, TIME AND <u>ASPHALT PATCHING BROOKINGS COUNTY ROADS 2020</u>** on envelope.
- The Notice of Call for Bids shall be considered as part of these specifications.

CONTRACTOR RESPONSIBILITIES

1. <u>**A one week notice prior to starting the project is requested to be given to the County.**</u>

2. Prep roads immediately before asphalt patching; i.e., sweep roads, clean all entrances back to grass line and beyond to ROW line if asphalt surfaced, clean any foreign properties stuck to road surface.

3. Provide traffic control, safety trained flagging personnel, & road work signing during the construction process.

4. Provide equipment and apply SS-1h or CSS-1h Asphalt for Tack at a rate of 0.10 gallons per square yard within the project limits—County & Contractor to coordinate.

   The exact portions of these materials will be determined during construction.

5. Provide equipment to load, haul, and place Asphalt Concrete – Class HR from asphalt plant location to designated area of asphalt patch. Asphalt Concrete Class HR shall conform to Section 326.1 – 326. 5 2015 Standard Specifications for Asphalt Concrete Class HR.

   The exact portions of these materials will be determined during construction.

6. Provide equipment for rolling chips immediately after chips have been placed; rolling to conform to SD Standard Specifications for Roads & Bridges.

7. Asphalt patching operations are allowed in daylight hours only; no operations while dark.

8. Provide proof of work comp., vehicular liability insurance, and comprehensive liability insurance ($1,000,000.00 minimum) with contractual authority each at the minimums or normal limits for the type of contract requested.

9. Work to be completed after removal of the Brookings County Spring load restrictions and work may continue until weather requirements do not conform to Section 320.3, Construction Requirements, A. Weather and Seasonal Limitations, 2015 Standard Specifications for Asphalt Concrete, General. Extension may be granted for weather if approved by Highway Superintendent.

10. Scheduling shall be discussed with the Highway Superintendent prior to contract completion.

11. Bid price shall be on a per ton basis.

12. A certified check, cashier's check or bank draft on a SD Bank for 5% of bid and payable to the County Auditor must accompany each bid. In lieu thereof, a bond of 10% of the amount bid issued by a surety authorized to do business in the State of SD is acceptable. The surety is to be payable to Brookings County as a guarantee that such bidders will enter into a contract. A performance bond for full amount of contract shall be furnished by successful bidder before construction begins.

13. <u>County road numbers shall be placed on all asphalt tickets and a copy shall be provided to the Highway department the day of the placement.</u>

14. <u>No work will be allowed to be performed on Sunday</u>.

COUNTY RESPONSIBILITES

1. County will provide markings (length and width) at each location of patch prior to asphalt patch material application.
   a. Asphalt patches shall be a minimum of 350'
   b. Roadway widths and patch depths may vary
   c. Totals will be calculated on a square yard basis. County and Contractor to coordinate

1. County shall have shoulders shaved with blade prior to contractor commencing with asphalt patching.

2. Brookings County will have staff present on the project during construction for project inspection, answer questions regarding project progression, & project coordination.
